HOW TO USE

This kit will help you design your kitchen.

Start by printing off the whole document so you can see what is included. There is:

1. A planning grid

you can draw the outline of your kitchen on the grid.

2. Pages of units to cut and put on the grid.

The units are divided into these categories:

- a. Appliance housings*
- b. Base/Tall Cabinets - some represent specific units, others are blank so you can write a unit number on them.*
- d. Wall Cabinets - some represent specific units, others are blank so you can write a unit number on them.*

Don't forget - if you need an extra cabinet you only need print the page, not the whole document.

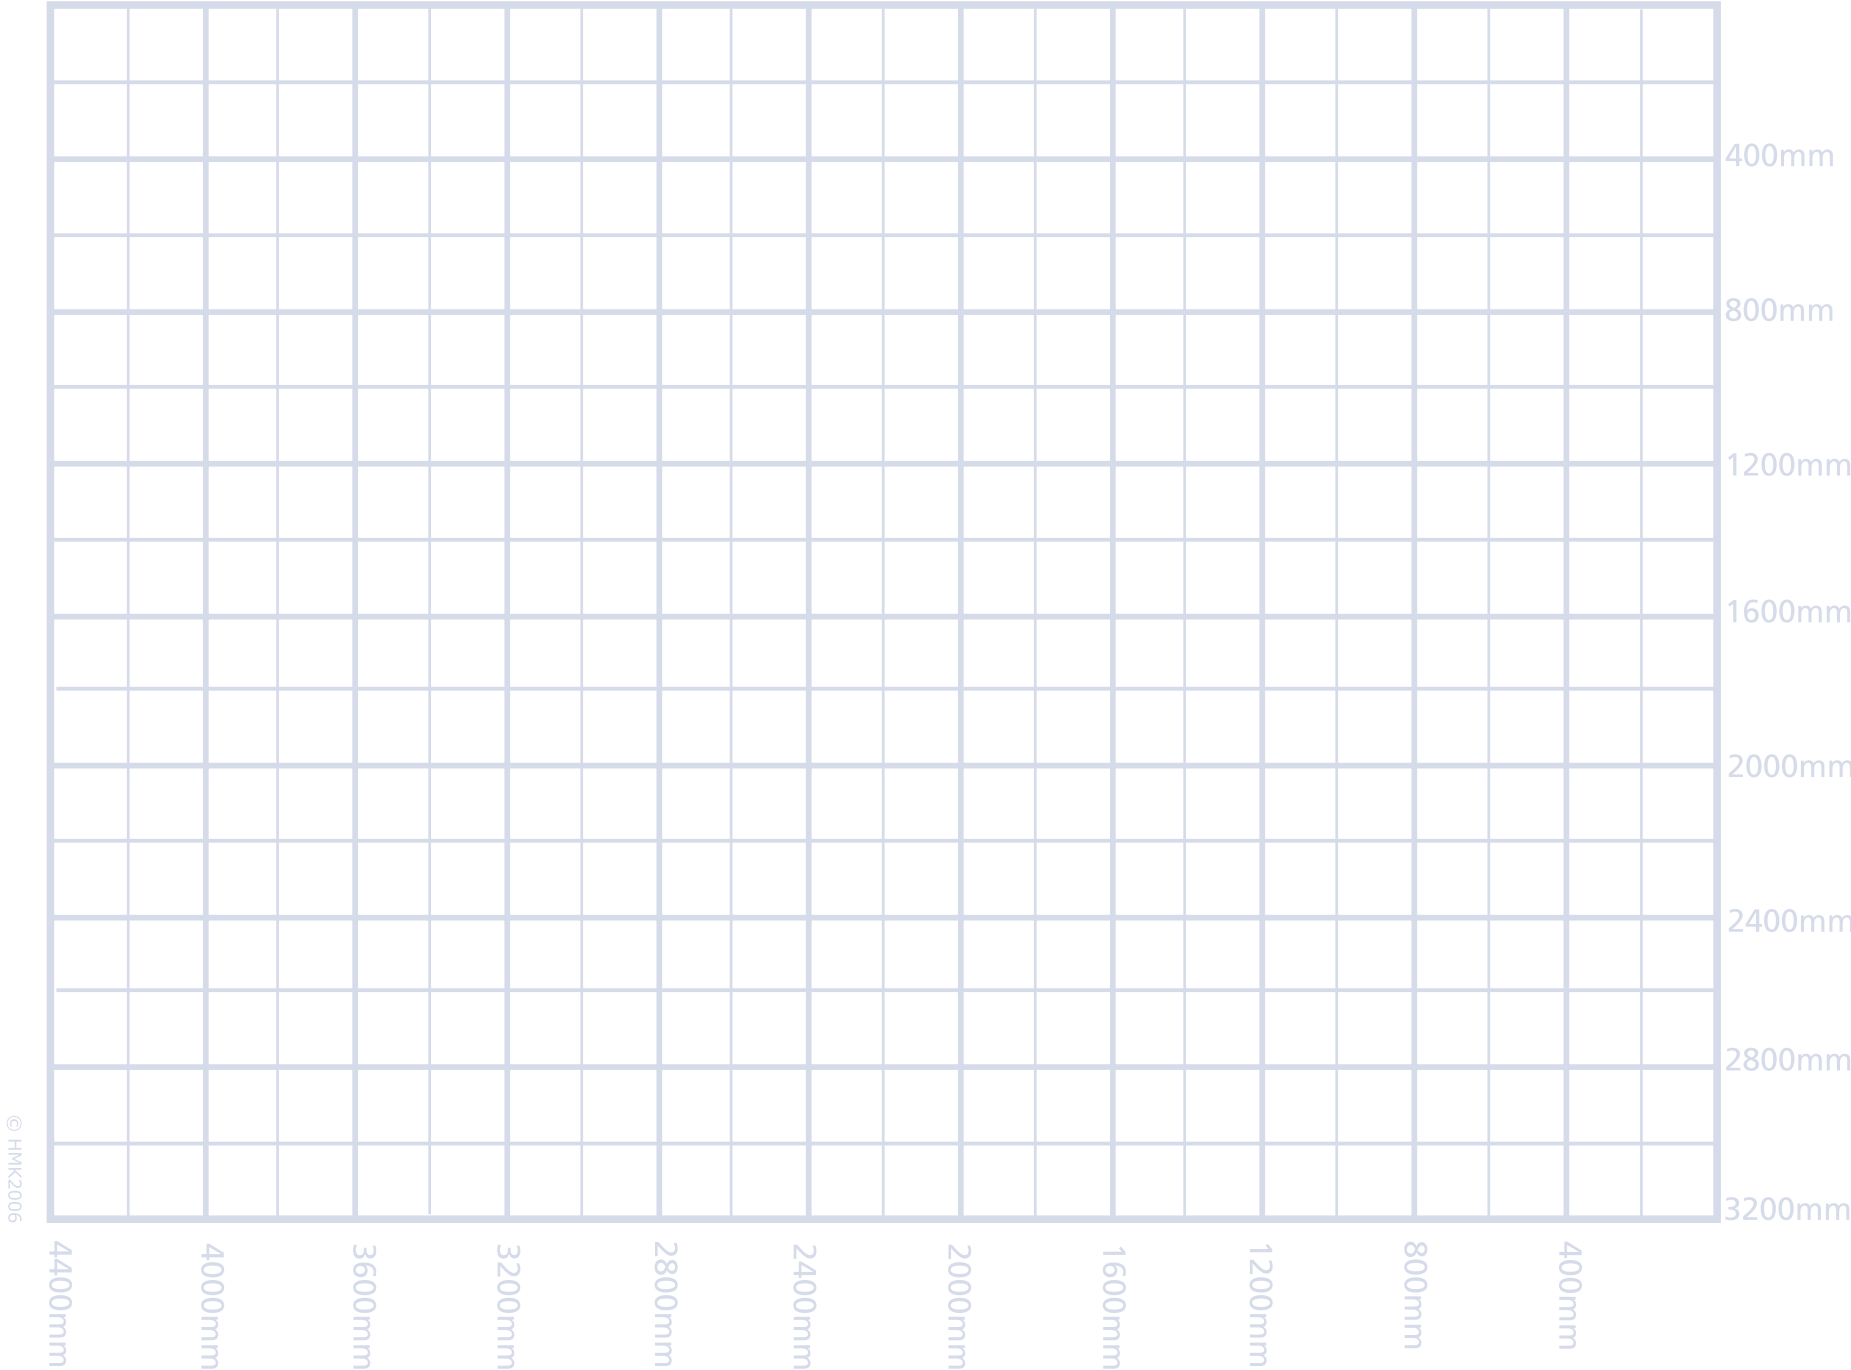

Once you have your completed plan, please use it to complete our order form, or email it to us, or bring it into the showroom, or send it to us here:
